SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via Faculty Quality Procedures for approval and issue of new module code.*

MODULE CODE: ACSK4001*	MODULE TITLE: Academic Skills
-------------------------------	--------------------------------------

CREDITS: 15	FHEQ LEVEL: 4	JACS CODE: NA
--------------------	----------------------	----------------------

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: Y
-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:
 This module serves as an introduction to the core academic skills required of students embarking on undergraduate studies in a range of courses and modules. Students will embed academic literacy, alongside the development of technical and interpersonal skills, as appropriate to study in specific disciplines. It takes a task-based and reflective learning approach to develop students' existing skill sets, exploring and strengthening new skills and focusing on social and emotional skills.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]

WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSMEE

Professional body minimum pass mark requirement: NA

MODULE AIMS:
 The aims of this module are to develop knowledge and understanding of academic literacy/skills and to discuss and build cognitive and intellectual skills in the areas of critical thinking, problem solving, and communication skills.

ASSESSED LEARNING OUTCOMES:
 At the end of this module students will be expected to be able to:

1. Show evidence of understanding core components of academic literacy/skills.
2. Apply critical thought to a range of tasks, and do so with a minimum of external guidance in particular situations.
3. To reflect, analyse and discuss strengths, weaknesses, and opportunities personally and academically.
4. Use appropriate technologies to facilitate the completion of self-analysis/reflection.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM LONDON
DATE(S) OF APPROVED CHANGE:	TERM: Autumn/Spring/Summer

Additional notes (for office use only):

This module includes a combination of skills based elements and subject based elements. The Learning and Skills Department are working alongside subject specialists to ensure students receive a balance of generic skills with skills relevant to their chosen discipline. Indicative examples of skills are outlined within the appendix in the Programme Specifications. More detailed schemes of work are available for each student within the individual module handbooks each semester.

MODULE LEADER: See module handbook	OTHER MODULE STAFF: See module handbook

Summary of Module Content

This module is designed to provide students with the personal and practical skills needed to support their academic development at undergraduate level, with a view to building their awareness of the skills and attributes they will need in their future professional lives. The module is preparatory and developmental, but features practical tasks, with a view to building student autonomy and increasing basic academic literacy.

There is a focus of giving students an awareness of the core components of academic literacy, whilst at the same time students will be supported through academic mentoring.

Whilst this is a common skills module, seminar and workshops will support students in the application of these skills as appropriate to the degree subject areas being studied.

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information

Lecture	20	Lectures focus on understanding and development of skills.

-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:
 Managers are responsible for planning, organising, leading and controlling human and other resources. This module introduces and explains the main business functions and considers the contribution made by theories to the practice of management. The module considers how management has evolved within an external environment of turbulent change. Management, leadership styles and motivational theories are considered.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]					
WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSMEE

Professional body minimum pass mark requirement: NA

MODULE AIMS:
 The aim of this module is to give an introduction to the characteristics of organisations and to provide familiarity with business aims, objectives, strategy, planning and corporate social responsibility. Whilst exploring the main functional areas of business, the principles of management, culture, leadership and motivation are areas of focus. Further, it aims to demonstrate the importance of management effectiveness on the relationship between corporate strategy and functional management. It also aims to identify the leadership and motivational styles and techniques needed to engage employees and ultimately to encourage employees to demonstrate advocacy in the organisation in which they are employed.

ASSESSED LEARNING OUTCOMES:
 At the end of this module students will be expected to be able to:

1. Understand the structures and characteristics of organisations
2. Recognise the principles of modern management
3. Identify the relationship between strategic objectives, functional management and the business environment.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM LONDON

SECTION A: DEFINITIVE MODULE RECORD. *Proposed changes must be submitted via Faculty Quality Procedures for approval and issue of new module code.*

MODULE CODE: MCOM4040	MODULE TITLE: Marketing and Communications
------------------------------	---

CREDITS: 30	FHEQ LEVEL: 4	JACS CODE: NA
--------------------	----------------------	----------------------

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: N
-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:

This module focuses on the importance of marketing in its role in driving success and delivering results. It provides an introduction to the functions of marketing within the organisation, examines key marketing concepts and explores their application in the context of organisations. Students will examine the theories, processes and practices of good business communications to facilitate an understanding of the importance of effective internal and external communications in a business context.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]

WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSME

Professional body minimum pass mark requirement: NA

MODULE AIMS:

PART I: Marketing

To develop an understanding of the role and function of marketing in an organisation; to identify factors and trends in the marketing environment and how they affect marketing planning (principles

of market planning including segmentation, targeting and positioning); to enable students to identify the key elements of the marketing mix 7Ps (product, price, place, promotion, people, process and physical evidence) and its application in meeting customer needs; to understand factors that influence the customers and how customer relationships can be managed; to be able to communicate to both internal and external customers using a variety of different means.

PART II: Communication

To introduce key terms, definitions, concepts, current theories and practices used in communications; to

enable the successful identification of solutions to resolve issues and challenges in business communications to improve impact and outcomes; to enable students to develop and implement communications activity both internally and externally, to equip students with frameworks to critically assess communications activity; to develop skills to communicate effectively across a range of audiences and contexts.

ASSESSED LEARNING OUTCOMES:

At the end of this module students will be expected to be able to:

1. Identify and explain the marketing concept, the marketing mix and the components of

the marketing communications mix.

2. Explain the relationship between the marketing environment, its impact upon organisational decision making and consumer behaviour.
3. Discuss the factors that determine competitive advantage within organisations
4. Explain key theories, concepts and models underpinning business communication to create effective communications.
5. Examine and discuss organisational issues and challenges that impact on the effectiveness of business communication through the use of pre-defined criteria to assist in improving communication within the organisation.
6. Demonstrate an application of concepts and techniques related to business communication processes used within the workplace.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM LONDON
DATE(S) OF APPROVED CHANGE:	TERM: Autumn/Spring/Summer

Summary of Module Content

This module is designed to give students the skills needed to support their professional development at undergraduate level, with a view to building their awareness of the skills in the business world. The module builds on students' academic skills, and scaffolds the students towards the completion of specific tasks and assignments on which they will be assessed.

There is a focus on giving students an awareness of the core generic skills needed in the professional world. In addition, with input from discipline specialists, specific vocational skills are developed. For example, students on the LLB programme are taught by a law specialist in conjunction with the Learning and Skills department, and the content includes practical debating, mooting and other law related skills.

SECTION A: DEFINITIVE MODULE RECORD. Proposed changes must be submitted via Faculty Quality Procedures for approval and issue of new module code.

MODULE CODE: IHRM4032	MODULE TITLE: Introduction to Human Resource Management
------------------------------	--

CREDITS: 15	FHEQ LEVEL: 4	JACS CODE: NA
--------------------	----------------------	----------------------

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: Y
-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:
 The module provides a broad introduction to the management of Human Resources in organisations and focuses on the aims, objectives and main HR functions in contemporary organisations and the ways that these are evolving. The module aims to demonstrate different approaches to delivering HR objectives and will explore the management of the employment relationship and the methods that can be used to demonstrate that the human resource function adds value for organisations.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]					
WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1 Report	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSME
--

Professional body minimum pass mark requirement: NA
--

MODULE AIMS:
 The module provides a broad introduction to the management of Human Resources and enables students to identify and review business and external contextual factors affecting organisations. The module assesses the impact of these factors on the main HR functions within contemporary organisations; in particular, recruitment and selection, training and development and performance management. Students are expected to describe and respond to a number of human resources-related problems by understanding the relationship between organisational performance and effective HR management and development.

The module enables students to examine how these functions might be used in practice and allows students to examine how human resource related information informs a manager's decision making process and the role played by HR managers in facilitating and promoting effective change management.

The module enables students to understand the contribution of the HR function to the success of the business and the ways in which effective human resource management contributes to the sustainability and growth of the organisation to gain competitive advantage. The learning outcomes map the fundamental content and outcomes for the Chartered Institute of Personnel & Development Intermediate level "Business Issues and the Context of Human Resources" unit.

ASSESSED LEARNING OUTCOMES:

At the end of this module students will be expected to be able to:

1. Explain how organisational and HR strategies and practices are shaped and developed and explain the purpose and key objectives of human resources management and the HR function within a contemporary business environment.
2. Identify the purpose and key objectives of the HR function in contemporary organisations and be able to demonstrate the process of evaluating current and future human resource needs within the business environment; both in terms of numbers of people and skills and competencies.
3. Appraise the relationship between organisational performance and effective HR management and development. Know how to identify and respond to short-term changes in the business and external contexts and provide solutions to address them.
4. Explain the significance of employment legislation to an organisation's HR practices and evaluate how to harness effective HR practices in a global marketplace in terms of adding value and positive contribution to sustained organisation performance.

<ol style="list-style-type: none"> 1. Develop employability skills and increase self-awareness within a range of contexts to demonstrate a commitment to lifelong career development learning 2. Apply and critically appraise a range of theories of career development 3. Analyse and evaluate sources of local, 	<u>Knowledge and understanding:</u> K1.0 Knowledge and understanding of the key aspects of business management and in their chosen field of study. K1.2 Critical understanding of the need to collect, manipulate and interpret relevant

regional and global opportunities relevant to career ideas, interests and ambitions

4. Produce a professional CV, online profile, action plan and develop digital literacy skills for work

quantitative and qualitative data in relation to basic business issues.

Cognitive and Intellectual Skills:

C2.0 Engagement in meaningful debate and analysis of topics related to the subject of business, management and in their chosen field of study.

C2.2 Application of the correct concepts and frameworks to clearly defined problems while beginning to appreciate the complexity of the decision-making involved in business activity.

C2.4 Collection and synthesis of business ideas and information in a formal manner.

Transferable Skills:

T3.0 Utilise the transferable skills necessary to work in a range of sectors and industries

T3.1 The ability to operate in predictable defined contexts using standard, recognised techniques.

T3.2 Working with limited autonomy within agreed and defined parameters.

T3.3 The development of responsibility for their own learning.

T3.4 Effectiveness with others while meeting the required obligations involved.

Employment:

E4.0 Skills required for graduate employment in the areas of business management and chosen field of study including the use of initiative, complex decision making, and the ability to recognise the need for further professional development.

E4.1 Identification of the career specialism that reflects their interests and abilities.

E4.2 Understanding of careers' pathways and the professional expectations of the behaviour required to achieve these.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM London
DATE(S) OF APPROVED CHANGE: XX/XX/XXXX	SEMESTER: Autumn/Spring/Summer

Additional notes (for office use only):

This module includes a combination of skills based elements and subject based elements. The Learning and Skills Department are working alongside subject specialists to ensure students receive a balance of generic skills with skills relevant to their chosen discipline. Indicative examples of skills are outlined within the appendix in the Programme Specifications. More detailed schemes of work are available for each student within the individual module handbooks each semester.

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Some parts of this page may be used in the KIS return and published on the extranet as a guide for prospective students. Further details for current students should be provided in module guidance notes.

OTHER MODULE STAFF: see Module Handbook

Summary of Module Content

This module allows students to develop their professional skills and employability to help them make effective and informed career transitions during and after their programme. They reflect upon their career journey to date, use a range of self-assessment and employability tools, explore career options and analyse the career paths of alumni. They are given opportunity to network with industry professionals, create a professional CV and develop digital skills for work in the context of the local, regional and global marketplace.

Whilst this is a common skills module, seminar and workshops will support students in the application of these skills as appropriate to the degree subject areas being studied.

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Lecture	20	Induction, introduce employability model, theoretical frameworks for career development
Tutorials	20	Apply theory to case studies and employability portfolio production. Employability assets will be expected to be

		produced by students to build the components of the employability portfolio.
Guided independent study	110	Wider reading, preparation for sessions, e-learning, webinars and attending GSM London careers' seminars.
Total	150	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

SHORT MODULE DESCRIPTOR:

This module recognises how digitality enables organisations to be agile and how digital channels and digital communications' tools can help to achieve business objectives. It recognises that digitality is now one of the most important sales and marketing tools available to businesses. This is a practical digital marketing module which enables students to effectively use digital skills in a business context.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]

WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSME
--

Professional body minimum pass mark requirement: NA
--

MODULE AIMS:

This module aims to give students a clear understanding of the role and value of digital marketing across organisations. Students assess the role that various channels and activities play in the planning, implementation and management of digital business models, and channels of communication. Practical digital marketing skills are gained to be applied in all working environments.

ASSESSED LEARNING OUTCOMES:

At the end of this module students will be expected to be able to:

1. Explain the foundation principles of digital marketing, and be able to distinguish between traditional and digital marketing.
2. Identify the relevant laws and guidelines that pertain to the different aspects of digital marketing.
3. Apply digital marketing tactics to develop integrated and effective digital marketing approach across different digital domains.
4. Analyse the role of content within digital channels.
5. Examine the value of ongoing analysis and measurement as a way of managing and evaluating their digital marketing efforts and budgetary spend.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM LONDON
DATE(S) OF APPROVED CHANGE:	TERM: Autumn/Spring/Summer

Additional notes (for office use only):

Students may also opt to sit an additional professional exam with the Digital Marketing Institute for their Professional Diploma in Digital Marketing. An additional cost will be incurred to sit this online exam.

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Whilst many higher education studies have focused on the importance of developing subject knowledge and the critical and analytical skills relevant to the study, it has become increasingly important for students to be able to apply this knowledge and these skills within a work context. Thus, this module provides students with the opportunity to either undertake a work placement or engage in a work-related learning project implemented within a specified timescale.

ELEMENTS OF ASSESSMENT [*Use HESA KIS definitions*] – see *Definitions of Elements and Components of Assessment*

MODULE AIMS:

The aim of this module is to provide students with the knowledge, skills, and resources required to develop and implement a work related project or undertake a work-based learning placement. Both will have a clearly defined purpose, measurable objectives, and an achievable timescale.

This module also aims to provide students with the appropriate foundation for work based/related learning to support their development as independent life-long learners. It will provide students with training workshops and master classes to support the skills and knowledge required for the project or placement.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
<ol style="list-style-type: none"> 1. Build a portfolio of evidence using a range of methodologies and activities (log books; critical incident diaries; employer or supervisor feedback) 2. Identify and articulate the development of work related skills mapped to evidence drawn from either the project or placement. 3. Demonstrate knowledge and understanding of the background and context relative to the chosen project or placement opportunity. 4. Evaluate the effectiveness of preparation and planning undertaken prior to the placement or project implementation. 	<p><u>Knowledge and understanding:</u></p> <p>K1.0 Demonstrate knowledge and understanding of the key aspects of business management.</p> <p>K1.1 Apply a factual and conceptual knowledge-base to such creative business areas as finance, people, their behaviour and communications.</p> <p>K1.2 Recognise the need to collect, manipulate and interpret relevant quantitative and qualitative data to address business issues and develop coherent solutions.</p> <p>K1.3 Identify how different cultural and business contexts affect the field of study.</p> <p><u>Cognitive and Intellectual Skills:</u></p> <p>C2.0 Engage in meaningful debate and analysis of topics related to business management within field of study</p> <p>C2.1 Carry out an analysis of the business environment with guidance to provide satisfactory responses to issues.</p> <p>C2.2 Apply the correct concepts and frameworks to clearly defined problems, while beginning to appreciate the complexity of the decision-making involved in the field of study.</p> <p>C2.4 Collect and synthesise business ideas and information to support strategic decision making.</p> <p><u>Transferrable Skills:</u></p> <p>T3.0 Utilise the transferable skills necessary to work within areas of management in field of study.</p> <p>T3.1 Operate and adapt management practices using standard, recognised techniques.</p> <p>T3.2 Work with limited autonomy within agreed</p>

and defined parameters.

T3.3 Develop responsibility for their own learning and reflect on their professional practice.

T3.4 Work effectively with others while meeting the required obligations involved.

Employment:

E4.0 Demonstrate possession of the skills required for graduate employment including the use of initiative, complex decision making, and the ability to recognise the need for further professional development.

E4.1 Identify the career specialisms available and progression routes that reflect their interests and abilities.

E4.2 Understand careers pathways and the professional expectations, behaviours and values required to achieve these.

Practical:

P5.0 Demonstrate the acquisition of GSM London's Graduate Attributes and facilitate the application of these attributes in both academic and vocational contexts.

P5.1 Demonstrate an understanding of the issues involved when working with others and to be able to act appropriately to achieve successful outcomes.

P5.2 Apply relevant methods and frameworks to clearly-defined business problems.

P5.3 Undertake research tasks with minimum guidance to investigate and identify solutions to business problems within the field of study.

P5.4 Communicate effectively to explain business issues in a clear and concise manner.

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM London
DATE(S) OF APPROVED CHANGE: XX/XX/XXXX	SEMESTER: Autumn, Spring, Summer

Additional notes (for office use only):

The delivery of this module is provided through each programme's specific teaching team and subject specialists. Students will be required to undertake a project within their subject area. Students will receive guidance from their programme team and should review the module handbook and scheme of work as relevant to their programme for more information.

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Some parts of this page may be used in the KIS return and published on the extranet as a guide for prospective students. Further details for current students should be provided in module guidance notes.

ACADEMIC YEAR: 2017-2018

NATIONAL COST CENTRE: N/A

MODULE LEADER: See Module Handbook

OTHER MODULE STAFF: See Module Handbook

Summary of Module Content

The projects are defined by the programme team to ensure that they are related to the students' programmes of study. Projects will be undertaken within a group setting to create opportunities for collaborative working, however, each student has a clearly defined role and responsibilities. The project could take a range of formats such as a simulation activity, extended case study, and consultancy project briefed by an SME or social enterprise. Students opting for work-based learning will have attended workshops in the previous semester designed to guide and support them in securing a placement opportunity.

The overall theme of this module is independent work based/related learning. Therefore, students will be assigned project supervisors who will act as critical friends and guardians to the work being undertaken. As part of this process, students are required to produce a satisfactory learning agreement, reflecting work undertaken during the project/placement preparation stage. To support these, workshops are delivered to assist students with their preparation for either the project or the placement.

Indicative content of sessions may include:

Preparation for work-based/related learning; developing the learning contract; tool kits: securing a placement; managing personal development; managing teams; project and consultancy skill sets; action learning methods; portfolio methodologies; reflective practice models and approaches; establishing key performance indicators for independent learning.

In order to scaffold students' learning for the implementation of the projects or placements, master-classes will be delivered via webinar. These could include the following:

Market research methods to support the projects; starting a business; business plan development; project management; academic/professional writing; customer relationship management; client and consultation (client interviewing); people development (performance development review).

In addition to the specialist master-classes above, students are expected to develop their business skills using courses available on Lynda.com. Each student selects and completes a course in consultation with their supervisor or host employer. Examples include:

Microsoft Project or Excel for producing a project plan; risk assessment; budgeting; social media for communication; digital content creation; SAP training.

The module also further develops key transferable skills, such as oral communication, and personal development planning, including career planning.

MODULE AIMS:

The overall aim of this module is to enable students to evaluate the significance of their learning derived from the project or placement. It should enhance their commitment to life-long learning and reflective practice. The module also aims to support the production of reflective writing and career development planning.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
--	--

1. Demonstrate the ability to relate academic theory to the work environment and recognise the contribution of practice to the development of theory.
2. Confidently apply work related skills in a professional context.
3. Demonstrate a critical approach to evaluation techniques and reflective practice.
4. Produce a career and personal development plan to support their level 6 studies and entry to graduate employment.

Knowledge and understanding:

- K1.0 Demonstrate knowledge and understanding of the key aspects of business and in their chosen field of study.
- K1.1 Apply a factual and conceptual knowledge-base to such creative business areas as finance, people, their behaviour and communications.
- K1.2 Recognise the need to collect, manipulate and interpret relevant quantitative and qualitative data to address business issues and develop coherent solutions.
- K1.3 Identify how different cultural and business contexts affect the creative industries.

Cognitive and Intellectual Skills:

- C2.0 Engage in meaningful debate and analysis of topics related to business management and in their chosen field of study.
- C2.1 Carry out an analysis of the business environment with guidance to provide satisfactory responses to issues.
- C2.2 Apply the correct concepts and frameworks to clearly defined problems, while beginning to appreciate the complexity of the decision-making involved in field of study.
- C2.4 Collect and synthesise business ideas and information to support strategic decision making.

Transferrable Skills:

- T3.0 Utilise the transferable skills necessary to work within areas of management and in their chosen field of study.
- T3.1 Operate and adapt practices to the field of study using standard, recognised techniques.

T3.2 Work with limited autonomy within agreed and defined parameters.

T3.3 Develop responsibility for their own learning and reflect on their professional practice.

T3.4 Work effectively with others while meeting the required obligations involved.

Employment:

E4.0 Demonstrate possession of the skills required for graduate employment including the use of initiative, complex decision making, and the ability to recognise the need for further professional development.

E4.1 Identify the career specialism and progression routes that reflect their interests and abilities.

E4.2 Understand careers pathways and the professional expectations, behaviours and values required to achieve these.

Practical:

P5.0 Demonstrate the acquisition of GSM London's Graduate Attributes and facilitate the application of these attributes in both academic and vocational contexts.

P5.1 Demonstrate an understanding of the issues involved when working with others and to be able to act appropriately to achieve successful outcomes.

P5.2 Apply relevant methods and frameworks to clearly-defined business problems.

P5.3 Undertake research tasks with minimum guidance to investigate and identify solutions to business problems within the field of study.

P5.4 Communicate effectively to explain business issues in a clear and concise

	manner.

Summary of Module Content

The overall theme of this module is independent learning and students are expected to carry out the evaluation and reflection of their project or placement activity. Classroom sessions focus on supporting students to complete the evaluation and become a reflective practitioner.

The indicative content is expected to include the following:

The virtuous circle that is work based/related learning, evaluation methodologies, building a reflective mind-set; evaluative and reflective writing; theoretical perspectives and models of reflection; sources of evidence for evaluation and reflection; writing a critical evaluation and reflection; developing professional values; developing a career and personal development plan.

Project groups and placement students are given the opportunity to present their experiences to tutors and peers. This is a formative activity to encourage critical reflective practice

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Seminars	20	Scheduled: sessions designed to support students in evaluating and reflecting on the project or work-based

		learning. Learning from work, Learning from each other.
Practical Classes and Workshops/ Project Supervision	30	A series of workshops and activities to encourage a sophisticated approach to reflective practice and career development planning.
Guided independent study	250	Independent: guided independent study relevant to the student's project – this essentially involve the time required to deeply evaluate and reflect on the project undertaken.

<p>MODULE AIMS: This module aims to demonstrate how long term strategic objectives have a significant impact on both operational policies and planning processes; to identify the external and internal factors that impact on strategic planning, and how they determine strategic processes and decisions. Also to evaluate the practical limits of quantifying strategy and methods of incorporating flexibility, creativity and innovation into long-term business planning.</p>
--

<p>ASSESSED LEARNING OUTCOMES: At the end of this module students will be expected to be able to:</p> <ol style="list-style-type: none"> 1. Assess the relationship and the need for compatibility between strategic management and functional management policies. 2. Outline and understand the historical development of corporate planning through strategic management and strategic flexibility. 3. Identify and analyse the internal and external influences on organisational objectives and strategy. 4. Critically evaluate the need for flexibility in strategic management and the practical limits of quantifying corporate strategy.

Summary of Module Content

Methods of setting strategic objectives; internal and external factors affecting strategic choices; interrelationship between strategic management and operational policies; influence of strategy on the size and structure of organisations; forecasting techniques; strategic leadership; limits to quantifying objectives; managing strategic change; the importance of flexibility; innovation and creativity; reasons for strategic failure; strategic management of MNC; SME and start-up enterprises, international strategy; ethics, corporate social responsibility; sustainability and risk management.

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]

Scheduled Activities	Hours	Comments/Additional Information
Seminars	30	These provide a mix of different techniques to show highlight and deepen the understanding of the topics. Using a mixed method delivery including the use of formative assessment case studies, interactive online practical activities, group discussions and small group tasks.
Guided independent study	120	Structure activities including reading; observations, research, group meetings, assessment or exam preparation and self-directed study
Total	150	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

Category	Element	Component Name	Component weighting	Comments Include links to learning objectives
Coursework	C_	Written assignment	100%	Linked to learning outcomes 1, 2, 3, and 4. Students work in groups of 2-4 to carry out a strategic review of an existing organisation and, where possible, link to a live project of a partner organisation (word count of 2500).

SHORT MODULE DESCRIPTOR: *(max 425 characters)*

Change is not only likely, it's inevitable. This module critically reviews theories, concepts and practices applicable to emerging issues that exemplify the dynamic working environment confronting organisations and workers today. The identification and analysis of these emergent issues provides students with a functional knowledge of current issues and a critical understanding of how these affect the shaping the overall organisational strategy and decision-making. This will focus on the specific emerging themes relating to students' disciplines of study and will change to reflect the contemporary debates of the day.

ELEMENTS OF ASSESSMENT *[Use HESA KIS definitions] – see Definitions of Elements and Components of Assessment*

MODULE AIMS:

This module aims to:

develop a deep understanding of the emerging themes within business and organisations;
critically evaluate themes and assess their impact on business strategy and decision-making;
apply a range of techniques to critically evaluate the appropriateness of existing organisational policies and practices;

provide practice in application through assessment of organisational impact of emergent themes and the development of strategies and policies to manage change.

ASSESSED LEARNING OUTCOMES: (additional guidance below; please refer to the Programme Specification for relevant award/ programme Learning Outcomes.

At the end of the module the learner will be expected to be able to:

Assessed Module Learning Outcomes	Award/ Programme Learning Outcomes contributed to
<ol style="list-style-type: none"> 1. Demonstrate a critical understanding of emerging themes as informed by research and the marketplace. 2. Critically analyse evolving trends in business management in order to provide robust strategic solutions to organisations. 3. Proactively source and apply research to inform operational and strategic decisions in different organisational contexts. 4. Critically evaluate a range of alternative courses of action in order to solve problems and implement decisions which result in achievable and appropriately viable outcomes for specific organisations. 	<p><u>Knowledge and understanding:</u></p> <p>K1.0 Knowledge and understanding of the key aspects of business management.</p> <p>K1.2 Critical understanding of the need to collect, manipulate and interpret relevant quantitative and qualitative data in relation to basic business issues.</p> <p>K1.4 Critical awareness of ethical issues in core business activities and the ability to discuss these in relation to personal beliefs and values.</p> <p><u>Cognitive and Intellectual Skills:</u></p> <p>C2.0 Engagement in meaningful debate and analysis of topics related to the subject of business, management, and field of study.</p> <p>C2.1 Competence in carrying out an analysis of the business environment with guidance to provide satisfactory responses to issues.</p> <p>C2.2 Application of the correct concepts and frameworks to clearly defined problems while beginning to appreciate the complexity of the decision-making involved in business activity.</p> <p>C2.3 Evaluation of the reliability of data using recognised and appropriate techniques.</p> <p>C2.4 Collection and synthesis of business ideas and information in a formal manner.</p> <p><u>Transferable Skills:</u></p> <p>T3.0 Utilisation of the transferable skills necessary to work within areas of management across sectors and industries.</p> <p>T3.1 The ability to operate in predictable</p>

defined contexts using standard, recognised techniques.

T3.2 Working with limited autonomy within agreed and defined parameters.

T3.3 The development of responsibility for their own learning.

T3.4 Effectiveness with others while meeting the required obligations involved.

Employment:

E4.0 Skills required for graduate employment in the areas of business management including the use of initiative, complex decision making, and the ability to recognise the need for further professional development.

E4.1 Identification of the career specialism that reflects their interests and abilities.

E4.2 Understanding of careers' pathways and the professional expectations of the behaviour required to achieve these.

Practical:

P5.0 The acquisition of GSM London's Graduate Attributes and facilitate the application of these attributes in both academic and vocational contexts.

P5.1 An understanding of the issues involved when working with others and to be able to act appropriately to achieve successful outcomes.

P5.2 Application of the relevant methods and frameworks to clearly defined business problems.

P5.3 Undertaking of research tasks with minimum guidance to investigate and develop people performance issues.

Summary of Module Content

This module will be developed around key themes in current environment as relevant to the degree subject across the various disciplines. Students will look at underpinning methods and techniques such as horizon-scanning, scenario-planning and sea-change planning. Indicative content may include current impact of technology or integrated-post-technology, demographic shifts, political environments, and global power redistribution.

Whilst this one module sits across a range of programmes, the content will be tailored as suitable to the degree subject area of study. For example; Emerging Themes in Marketing is likely to be different to Emerging Themes in Oil and Gas. The focus of the content for the emerging themes will be developed from the students own research and reading. So enabling students to study the impact of emerging themes on their own discipline.

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]		
Scheduled Activities	Hours	Comments/Additional Information (briefly explain activities, including formative assessment opportunities)
Seminars	30	Each seminar explores an emergent issue related to the area within the award subject. Each focuses on the specific tools of critical reading and evaluation tools particularly related to information synthesis.
Guided Independent	120	The Independent guided hours are primarily spent in three

Study		areas: preparation for the workshop, specified reading relating to a topic, undertaking of critical reading and writing tasks in preparation for the workshop.
Total	150 Hours	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

Summary of Module Content

This module allows students to undertake supervised research in an area of their interest. The module is intended to provide a robust foundation for the project, including the identification of a suitable research topic; identifying and reviewing significant and relevant literature; identifying, justifying and using appropriate research methodologies; reporting and analysing results; and drawing appropriate conclusions; identifying different types of research classification; the stages of the research process; evaluating literature; methods of data collection; qualitative and quantitative data analysis; presenting and analysing data; communicating research findings; ethical requirements in treating research subjects and conducting research. The skills that students acquire in their projects also equip them for working in a professional environment, aiding them in analysis and decision-making.

SHORT MODULE DESCRIPTOR: *(max 425 characters)*

In business, there is a need to seek answers to questions, such as service levels, consumer perceptions or how satisfied employees are. To succeed, businesses need to gather information about their competitors, their consumers and their own performance.

Through the evaluation of different research methods, students apply business research methods in a range of contexts. These methods will not only prove useful in personal and professional development but will form the foundation for work on a Capstone Project.

Professional body minimum pass mark requirement: NA

MODULE AIMS:
 This module aims to demonstrate the basic techniques and best-practice among world-class companies to improve project management performance. The module gives students a tool-kit to deliver a project, to budget for time and resources, and to identify and engage with the project's stakeholders. It will pay particular attention to risk elements within a project.

ASSESSED LEARNING OUTCOMES:
 At the end of this module students will be expected to be able to:

1. Identify and appraise the component parts of a major project
2. Construct an appropriate risk management plan for a project
3. Modify a project plan to respond to project constraints
4. Critically evaluate a time and cost constrained project plan and complete a Critical Path Analysis on the project

Summary of Module Content

Project definitions and characteristics; the role of project managers; the differences between project management and general management; the sequential phases of a project life-cycle; the importance of planning; risk analysis and management; stakeholders and their importance; control of projects; scope management; work breakdown structure; critical path analysis; documentation & communication; managing project meetings.

This module features formative assessments where students' knowledge is regularly tested with any of the following (or combination of) quizzes, group activities, practice tests, and many more, all of which are aimed at assisting students to develop the knowledge and understanding of the subject matter. Students receive timely feedback on each of the formative assessments completed during the module. All methodology and terminology will align to industry standards including PRINCE2.

SHORT MODULE DESCRIPTOR:
 Stakeholder and Community Engagement is a fundamental skill of the modern manager. This module helps students to recognise key people and groups and build and execute plans that gain and maintain the support from those groups that lead to successful outcomes. It prepares students to manage stakeholders and to communicate both within a normal management role and as part of a major project.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]					
WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSMEE

Professional body minimum pass mark requirement: NA

MODULE AIMS:
 This module aims to introduce students to stakeholder and community management theory and techniques. In particular, to recognise the importance of stakeholders and communities in everyday management tasks and major projects. It looks at techniques to identify stakeholder groups, analyse their sphere of influence and prioritise their importance to their objectives as individuals or organisations. The culmination of the module will involve creating plans and strategies to effectively manage and engage stakeholders and communities.

ASSESSED LEARNING OUTCOMES:
 At the end of this module students will be expected to be able to:

1. Use a range of techniques to identify and critically evaluate key stakeholders for a given situation.
2. Utilise issues identified in stakeholder analysis to develop and prioritise stakeholders and predict behaviour.
3. Select and justify appropriate communication strategies and measurement approaches to form and maintain stakeholder and community engagement.

--------------------	----------------------	----------------------

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: Y
-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:

This module provides students with the fundamental building blocks for setting up a successful and sustainable online enterprise. From analysing the marketplace to processing stock and providing a great end to end customer experience, students learn the ins and outs of trading successfully online whether using bespoke, out-of-the-box ecommerce platforms or selling wholly through a third party site such as eBay. The module also covers the legal aspect to keep students' businesses on track online.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]

WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSMEE

Professional body minimum pass mark requirement: NA
--

MODULE AIMS:

This module aims to determine what makes online presence successful in terms of website design, branding and interactivity. Students are be expected to appraise effective product presentation and on-line supply chain management. This module allows students, through analysis of feedback and website data, to explore and enable delivery of a good on-line customer experience.

ASSESSED LEARNING OUTCOMES:

At the end of this module students will be expected to be able to:

1. Identify and evaluate the advantages and disadvantages of the use of on-line enterprise in business and its practical, commercial and legal limitations.
2. Analyse approaches to on-line supply chain management and investigate approaches appropriate to identified scenarios
3. Critically analyse the on-line marketplace and develop robust on-line customer service and marketing strategies.

Summary of Module Content

This module covers all aspects of starting an online enterprise, be it as an adjunct to a traditional business or as a standalone business. The initial focus is on product presentation, online customer experience, order processing and despatch. Complementing this involves an in depth look at marketing and data analysis to maximise online presence. At all stages legal obligations for distance selling are included, as well as a summary of these at the end of the module.

Professional body minimum pass mark requirement: NA
--

<p>MODULE AIMS: This module aims to bring together the multiple aspects of students' degree programmes, with a particular focus on applying creative thinking and problem-solving techniques to business situations. Students are given the opportunity to experience the impact of strategic and tactical decision making as members of the Management Team of a Trading Company in a simulated business environment. This requires the application of knowledge from areas such as Strategic Management, Finance & Economics, Marketing & Communications and Human Resources. Each round of the simulation requires the formulation of both strategic and operational decisions. The entire module simulates 10 years of trading with a changing external environment, it is necessary to creatively adapt and develop strategies to respond to these changes.</p>
--

<p>ASSESSED LEARNING OUTCOMES: At the end of this module students will be expected to be able to:</p> <ol style="list-style-type: none"> 1. Reflect on and critically evaluate personal and management decisions and their outcomes. 2. Practically apply creative thinking and problem-solving techniques to help make business decisions in a dynamically changing environment. 3. Evaluate creative thinking and problem-solving techniques within the business context.

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: Y
-----------------------------	----------------------------	-------------------------

SHORT MODULE DESCRIPTOR:
 This module focuses on creativity and innovation as crucial skills in driving organisations forward. The external environment has been unstable and is undergoing rapid change with the introduction of new technologies, which are swiftly adopted by consumers. Systems employed by organisations have tended to favour perpetuation rather than innovation and the challenge for companies therefore is to become truly visionary.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]

E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSME

Professional body minimum pass mark requirement: NA

MODULE AIMS:
 This module aims to demonstrate the relevant theories and approaches to creativity and innovation. The module commences with an introduction to the concept of continuous innovation and NPD, as well as the design of ways of working that support the development of innovation, entrepreneurship and creativity.

ASSESSED LEARNING OUTCOMES:
 At the end of this module students will be expected to be able to:

1. Identify and explain the types of creative strategies processes used in different types of organisations and how to satisfy the ever moving organisational goals.
2. Critically evaluate a range of wide range of issues that arise by applying theories of creativity and innovation.
3. Critically analyse the complexities organisations face when implementing creativity and innovation into their existing culture.
4. Compare and contrast industry examples which demonstrate the importance of creativity and innovation and how it contributes to an organisations success.

----------------------------	----------------------	----------------------

PRE-REQUISITES: None	CO-REQUISITES: None	COMPENSATABLE: N
--------------------------------	-------------------------------	-------------------------

SHORT MODULE DESCRIPTOR:
A Capstone Project synthesises a student's learning in a single project that demonstrates their fulfilment of the programme learning outcomes. Each project results in a final product such as a research paper, article, and documented action project, presentation of a body of visual / literary work, written project, dissertation or combination thereof. It also includes a student's reflection in writing on his or her experience in relation to the material.

ELEMENTS OF ASSESSMENT [Use HESA KIS definitions]					
WRITTEN EXAMINATION		COURSEWORK		PRACTICE	
E1 (Formally scheduled)		C1	100%	P1	
E2 (OSCE)		C2		P3	
T1 (Test)		A1			

SUBJECT ASSESSMENT PANEL Group to which module should be linked: GSMEE

Professional body minimum pass mark requirement: NA

MODULE AIMS:
This module allows students to synthesise their learning in a single project that demonstrates their fulfilment of the programme's learning outcomes. It integrates their academic knowledge with experiences beyond the classroom and combines their developing knowledge, skills, and personal interests. The project is conceived, designed, and carried out independently, with support and supervision.

ASSESSED LEARNING OUTCOMES:
At the end of this module students will be expected to be able to:

1. Demonstrate a detailed knowledge of the major discipline with areas of specialisation. (Specific learning outcomes to be set by student and supervisor).
2. Undertake critical analysis using an appropriate range of techniques - evaluate evidence to support conclusions - application to complex situations.
3. Engage in self-assessment, reflection, and analysis
4. Use creative and critical thinking skills to solve problems.
5. Work and learn both independently and collaboratively
6. Communicate ideas and the results of their work with clarity and concision as appropriate to the identified audience.

--

DATE OF APPROVAL: 14-15/01/2015	FACULTY/OFFICE: Academic Partnerships (AP)
DATE OF IMPLEMENTATION: October 2015	SCHOOL/PARTNER: GSM LONDON
DATE(S) OF APPROVED CHANGE:	TERM: Autumn/Spring/Summer

Additional notes (for office use only):

Projects will fall into 4 categories: Research-based dissertation, work based learning, creative or a hybrid of these forms. Content and focus of the project will be as appropriate to meet the learning outcomes of the programme of undergraduate study.

The delivery of this module is provided through each programme's specific teaching team and subject specialists. Students are required to undertake a project within their subject area. They will receive guidance from their programme team and should review the module handbook and scheme of work as relevant to their programme for more information.

SECTION B: DETAILS OF TEACHING, LEARNING AND ASSESSMENT

Items in this section must be considered annually and amended as appropriate, in conjunction with the Module Review Process. Some parts of this page may be used in the KIS return and published on the extranet as a guide for prospective students. Further details for current students should be provided in module guidance notes.

ACADEMIC YEAR: 2017/2018	NATIONAL COST CENTRE: NA
MODULE LEADER: See module handbook	OTHER MODULE STAFF: See module handbook

Summary of Module Content

Capstone Projects are intended to be intensive, active learning projects, requiring significant effort in the planning and implementation by the student, as well as preparation of a substantial final submission.

Whilst subject is likely to be driven by the programme aims, there is a wide scope of opportunity for students to develop a project or dissertation in a subject area of their choice. Scrutiny review will be conducted on proposals and will look to ensure students have covered within their project development and implementation the nature and purpose of research and applied aspects of their research module such as role of self-reflection in planning and implementing a project, effectively communicating project findings and ensuring ethical requirements are met.

When first writing the CP, the student drafts an outline proposal in Research in a Professional Context or Research Methods for traditional dissertations. Prior to the semester during which the student begins to work on CP, he or she revisits and revises this proposal and submits it to the supervisor in advance of the semester. Some projects may require approval through a project approval/scrutiny committee following the marking of the proposal as part of Research in a Professional Context module.

At the start of the semester the student and Supervisor discuss the plan. Any revisions to this will need to be signed off by the supervisor or approval committee as deemed appropriate. Once the proposal has been approved, the student will design the early stages of the work that make up Capstone Project (CP) under supervision.

Supervision will be allocated as deemed appropriate through the programme teams. Depending on the project and the student's learning needs, the Supervisor may be supported by an additional tutor with subject specialism.

Building on the work of Capstone Project, the student carries out a substantial, personally meaningful project that demonstrates his or her learning in the field and programme and personal stance toward the project's material or practice in Capstone Project.

Examples might include a research paper and published article, film, documented product development.

SUMMARY OF TEACHING AND LEARNING [Use HESA KIS definitions]

Scheduled Activities	Hours	Comments/Additional Information
Project Supervision	10	Students regularly meet with their supervisors to discuss their progress. The term 'project supervision' is used to refer to the meetings that students have with their supervisors, to plan, discuss, and monitor their work. Meetings can take place either virtually or in person. The size of a project supervision meeting depends upon the number of students involved in the work concerned, and the nature of that work. Supervision will also frequently take place on a one-to-one basis.
Tutorials	20	Tutorials involve one-to-one or small group supervision, involving provision of feedback or detailed discussion on a particular topic or project. These may include action learning sets to support students through their studies so that they receive support from peers, as well as direction or feedback from tutors. Tutorials take place either virtually, or face-to-face.
Guided Independent Study	270	Guided independent study might include preparation for scheduled supervision sessions, follow-up work, wider reading or practice, completion of project related tasks. Students are expected to be responsible for their own learning, with appropriate support being provided by the

		institution, primarily through supervision. Additional support is provided through peer group based activity, access to libraries and learning spaces, additional skills training, etc. The focus of this guided independent study is on the execution and completion of students' Capstone Projects.
Total	300	(NB: 1 credit = 10 hours of learning; 10 credits = 100 hours, etc.)

Category	Element	Component Name	Component weighting	Comments <i>Include links to learning objectives</i>
Coursework	C_	Dissertation/ Written assignment	100%	Project output can be a practical nature, dissertation or written report. Students are assessed on the output of a period of project work (in this instance this may take the form of a dissertation or written report). Examples are diverse and include the documentation of an action based project e.g., an event/product development etc, a peer reviewed article or a film. The potential range of outputs are detailed in an accompanying Capstone Project Student Handbook.
